

BACHELOR'S OF SCIENCE NURSING (NRG)

The Nursing Program is strongly aligned with Concordia's faith foundation because of the shared recognition that service to others encompasses not only an individuals' physical needs, but also their spiritual and emotional needs. The faith tradition of the University and the Nursing Program upholds the meaningfulness of service to others, respect for the inherent worth and dignity of all persons, and concern for the needs of humankind. Concordia University recognizes the essential contribution of the profession of Nursing and is committed to excellence to expand and further fulfill its mission. Graduates of Concordia's BSN program, through their vocational development in healthcare, will serve as nurse leaders in promoting high-quality, safe client care in diverse settings, based on faith in God's love for all people and the desire to serve others as an expression of God's love.

Application Process for Pre-Professional and Professional Phase of the Concordia University BSN program

To enter the Pre-professional phase of the BSN program (semesters 1-4):

Any student enrolled in Concordia University Chicago may be enrolled in the pre-nursing phase of the BSN program. Enrollment in the pre-professional phase does not assure admission into the professional component. To enroll in any **nursing course (NRG)** in the pre-nursing phase of the BSN program, a student must be registered as a *Nursing major* with successful completion of the following courses **with a grade of C or better: BIO 3215, PSY2100** and, demonstrate a desire to continue to the professional phase with the completion of the following:

- A background check with a negative result
- Submission of required health documents and immunization titers
- Negative Drug screen

A student who receives a **D, F, or WF** in a nursing course (NRG designation) within the pre-nursing component may retake the nursing course **once** if space allows. However, if a total of two (2) failures are received (**D, F, or WF**) in any NRG course or combination of NRG courses (in the pre-professional phase), the student will not be accepted into the professional component of the BSN program.

To enter the professional phase of the BSN program (semesters 5-8):

The student must apply for admission to the professional component by submitting a complete and accurate nursing professional program application which will be reviewed by the nursing admissions committee in the **spring semester** of each academic year. Specific application dates will be posted on the Concordia University Chicago Nursing web page at the beginning of each spring semester. **Enrollment is limited and the admission process is selective and competitive.** Students, who have been enrolled for two traditional semesters, excluding summer, will receive priority for admission placement. When the number of qualified applicants exceeds the number of students which can be accommodated in the clinical courses, students are admitted according to GPA ranking.

All applicants, regardless of their entry status, must meet the following qualifications and apply during the semester prior to enrollment in the professional component:

- Achieve a minimum of a **2.75 cumulative grade point average in Concordia University courses.**

- ATI TEAS score of **68%**.
- Students must earn a grade of C or higher in any nursing prerequisite course and all nursing courses within the pre-nursing component. A student who receives a D, F, or WF in a nursing course (NRG designation) within the pre-nursing component may retake the nursing course once. However, if two (2) failures are received (D, F, or WF) in any NRG course or combination of NRG courses, the student will not be accepted into the professional component in nursing.
- Students must meet all legal, moral and legislative standards required for licensure to practice as a registered nurse.
- Students dismissed from another nursing program will not be accepted into the Division of Nursing.
- Application Process: To apply to the professional component, the student must submit/agree upon the following:
 - Complete an accurate nursing professional program application to include a medical history and physical exam performed by a qualified healthcare professional.
 - Provide verification of required immunizations and/or titers and skin tests. Clinical sites may require additional proof regarding communicable disease and the student's immune status.
 - Provide current Heart Saver CPR certification.
 - Submit to a background check by a contracted licensed company selected by the Division of Nursing. An unsuitable background check will result in dismissal or denial of admission into the professional component.
 - Submit to a drug screen performed by a contracted licensed company selected by the Division of Nursing. Failure to submit to a drug screening or a positive drug screen will result in dismissal or denial of admission to the professional component.
 - Meet essential mental and physical qualifications set forth by the Division of Nursing Disability Statement.

Direct Entry Applicants: Students who enroll as first semester freshmen as Direct Entry applicants and demonstrate scholarly effort with the achievement of the required admission requirements listed above *and* a continued vocation to nursing are admitted under a direct admit policy. Please note: The direct admit policy allows students to be admitted to the professional component as long as they have met all admission requirements.

Transfer Student Admission to the BSN program

1. The student must apply for admission by submitting a complete and accurate nursing professional program application, which will be reviewed by the nursing admissions committee in the **spring semester** of each academic year.
2. Letters of recommendation from the Dean/Director of the prior Nursing program are required. Letters should be addressed to the Director of Nursing.
3. If the student is transferring from another Nursing program, a minimum grade of C is expected for all nursing courses.
4. A maximum of **four (4)** courses are permitted to be transferred (Pathophysiology, Pharmacology, Nutrition, and Foundations of Nursing). Since courses titles differ among programs, course syllabi are required to establish congruency with the CUC BSN program. It is up to the discretion of the Director of Nursing to determine the validity of all nursing courses. Pre-requisite courses, which are not taught in the Division of

Nursing, should be evaluated by the Chair of the department in which the course is taught.

In order to keep programs and coursework relevant and current, Concordia University Chicago has implemented a "6-Year Rule," which allows a student to utilize completed prerequisite course credits towards subsequent coursework for up to six years after a course is successfully completed. Courses falling outside of the 6-year timeframe must be repeated. If the expired course no longer exists in the program's current curriculum, the student must take the designated replacement course to satisfy the prerequisite requirement.

Transfer credits from courses taken externally are subject to the same rules based on the date the credits were posted to a student's transcript and when approved by the office of the Registrar.

***Additional information on BSN Nursing program requirements can be found in the BSN Student Nurse Handbook or by contacting the Director of the Nursing Program.**

Additional Prerequisite Courses Required for Major

Code	Title	Hours
A Cumulative GPA of 2.75 or greater is required for admission to the professional phase of the nursing program. A grade of C- or better is required for all the following Nursing prerequisite courses:		
BIO-2111	Anatomy and Physiology I (With Lab)	4
BIO-2112	Anatomy and Physiology II (With Lab)	4
BIO-2500	Fundamentals of Microbiology (With Lab)	4
CHE-2200	Fundamentals of Chemistry (With Lab)	4
	or CHE-2211 General Chemistry I (With Lab)	
PSY-2100	Developmental Psychology: Life Span	3
PSY-2310	Statistics for the Behavioral Science	3
	or MAT-2000 Statistics	

And electives needed to complete the 120 hour major.

Graduation Requirements

Students in the College of Health, Science and Technology or The College of Theology, Arts and Humanities must meet all University requirements found in the Academic Information section of this catalog. Specific requirements for these Colleges include the following:

- A minimum cumulative GPA of 2.00 for all coursework completed at CUC
- A minimum GPA of 2.00 for all courses taken in the major at CUC
- A minimum grade of C for all courses taken in a major at CUC
- Payments of all tuition and fees due to Concordia University Chicago. All holds must be removed to receive transcripts and diploma.
- All Nursing courses must be taken for a grade and not for a grade of Pass/Fail.
