

PRE-ART THERAPY

A master's degree in Art Therapy is required to become a registered art therapist. With course work from art and psychology, this program provides a solid base for students wishing to pursue graduate school. Although Art Therapy programs do not typically require specific majors for admission, CUC's interdisciplinary Pre-Art Therapy major provides students with a solid background in Psychology, especially counseling related courses, as well as acquire hands-on art experience in a variety of art media and provide the opportunity to prepare an art portfolio (required for admission to most graduate programs). Course requirements are listed in the section: College of Theology, Arts & Humanities, Bachelor of Arts Degree Requirements (<http://catalog.cuchicago.edu/undergraduate/college-theology-arts-humanities/bachelor-arts-ba/bachelor-arts-degree-requirements/>).
